DPSG Vasundhara

**B.Sc. in Biomedicine**

# Studying Abroad Trivia!

## DO I MEET THE REQUIREMENTS OF OVERSEAS EDUCATION?

All colleges and universities have their own parameters, with an enhanced focus on English language skills. However, there are no specific restrictions. All students, interested in overseas education are encouraged to apply.

## HOW MUCH DOES IT COST TO STUDY ABROAD?

The budget calculations for studying abroad are based on Tuition fees majorly. This ranges from 15,000 USD to 70,000 USD. Other than that, residential fees, incidental fees, books, and supplies are added. With scholarships and financial aid, this becomes affordable.

## WHAT SHOULD I CONSIDER WHEN CHOOSING WHERE TO STUDY?

The first thing to know while applying abroad is the employment opportunities in terms of Return on Investment (ROI). The program you choose should have enough opportunities and accordingly, you are advised to choose the most feasible country. For example, for Fashion studies, Italy is recommended.

## WHAT IF I CANNOT AFFORD TO STUDY OVERSEAS?

This should not be a concern as most Universities offer full tuition scholarships, financial aids, and bursaries to students coming overseas to study.

## CAN I WORK AND STUDY AT THE SAME TIME?

Yes, you can. There are a limited number of hours (20 hours in the US and Canada) that you can work part time for, along with your studies. In summer or winter break, you can work for up to 40 hours a week (full time).

## HOW LONG DOES THE APPLICATION PROCESS TAKE?

The application process usually starts around Mid-August for fall intake in September. This goes until February next year. Scholarship applications are open till March. The US also has rolling admissions till April.

**C**
