## STUDENT COUNCIL LEADERSHIP PROGRAM (SCLP): DPSG INTERNATIONAL CULTIVATES TOMORROW'S LEADERS TODAY

**Dehradun:** DPSG International proudly participated in the Student Council Leadership Program (SCLP) 2025, a visionary initiative aimed at fostering leadership, responsibility, and 21st-century skills among school students. Organised across the DPSG society schools, this program serves as a common platform to mentor, empower, and prepare young learners to take on leadership roles within and beyond the school environment.

### Begin the Journey of Academic Excellence

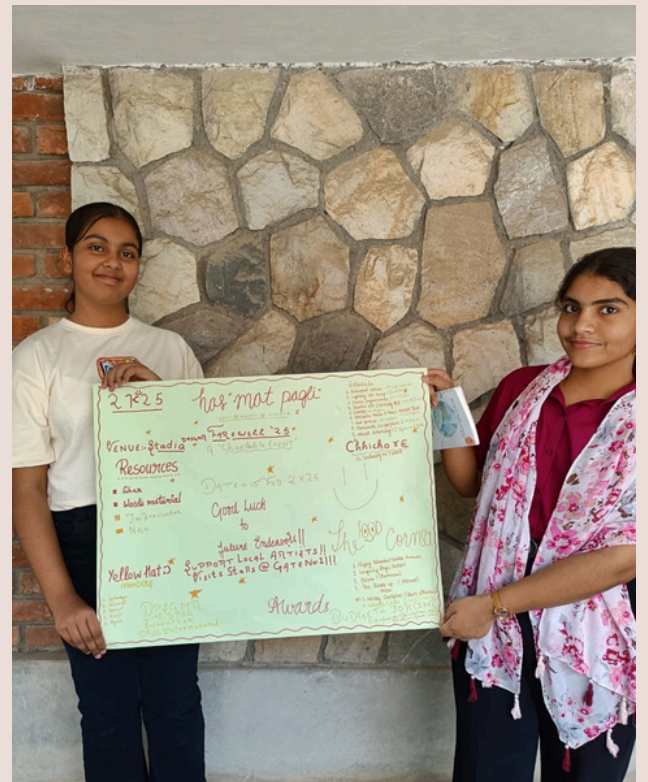

Embark on a journey where curiosity meets excellence, and every step at DPSG International leads to a future inspired by knowledge, character, and global vision.

At the heart of SCLP 2025 lies the belief that student leadership is not just about titles, but about action, influence, and service. The program engaged students in a series of thoughtfully curated workshops, simulations, and collaborative activities that enhanced their communication, decision-making, team-building, and ethical reasoning skills.

Through guided mentorship and interactive sessions, students explored the nuances of leadership in real-world contexts—learning how to lead with empathy, manage responsibilities, and contribute meaningfully to their school and society.

For DPSG International, the program was a reaffirmation of its commitment to holistic education—developing not only academic excellence but also confident, socially aware, and future-ready individuals.

The SCLP 2025 experience left a lasting impact, igniting a deeper sense of purpose and possibility in the students as they prepare to step into their roles as changemakers of tomorrow.

## CELEBRATING FATHER'S DAY THE DPSG INTERNATIONAL WAY – WITH HEART, GRATITUDE & PURPOSE

**Ghaziabad:** From Starz to Grade 12, our learners participated in a meaningful initiative on the special occasion of Father's Day that beautifully blended environmental awareness with emotional connection.

A thought-provoking video on reducing plastic usage and recycling paper sparked important conversations across classrooms. As part of an eco-conscious campaign by J.K. Papers, each student received a card and pencil to write a heartfelt letter to their father. The joy of personally handing over these letters at home created priceless moments and lasting memories. The emotions shared between children and fathers were truly heart-warming. At DPSG International, we believe in nurturing values that go beyond academics – love, gratitude, and responsibility, not just for family, but for our planet too.

## INTERNATIONAL YOGA DAY 2025: DPSG INTERNATIONAL SPREADS THE SPIRIT OF HARMONY, HEALTH, AND MINDFULNESS

**Ghaziabad:** DPSG International celebrated the International Yoga Day on 21st June with a vibrant and energetic yoga session taken by Dr. Upasana Joshi (Yogacharya) held on the school campus. The event witnessed enthusiastic participation from students, parents, school coordinator, teachers, and school stakeholders, reflecting the spirit of unity and holistic well-being.

The session began with a warm welcome and progressed into a rejuvenating series of asanas, pranayama, and guided relaxation—highlighting the importance of a healthy mind and body.

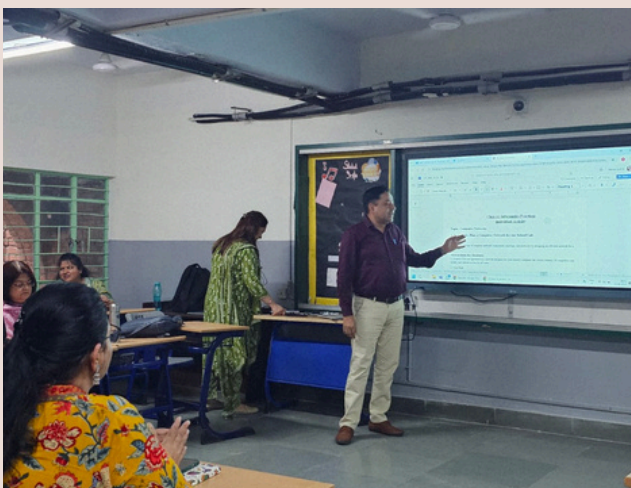

Ms. Dimple Chawla, the Head of School, talked about the focus on wellness and inner peace, in alignment with this year's theme, 'Yoga for Self and Society' and how the school continues to uphold the value of mindful living, health, and community wellness through such impactful initiatives. The school grounds echoed with positivity as everyone came together to embrace yoga as a powerful tool for physical and mental harmony.

## PROFESSIONAL LEARNING DEVELOPMENT PROGRAM (PLDP): EMPOWERING EDUCATORS, ENRICHING CLASSROOMS AT DPSG INTERNATIONAL

**Ghaziabad:** In 2025, the role of educators has transformed beyond traditional instruction—they are now visionaries, digital pioneers, and reflective practitioners driving impactful learning experiences. At Delhi Public School Ghaziabad (DPSG), this evolution is not just acknowledged but actively nurtured through a deeply strategic approach to professional development.

The second phase of DPSGS's Professional Learning and Development Program (PLDP) 2025 marked a significant milestone in the journey of educational excellence. Bringing together educators from Grades 6–12 and the IB PYP across the society, the program served as a catalyst for advancing instructional practice, leadership, and student engagement.

The program emphasized reimagining learning and assessment by exploring innovative tools and strategies that align with contemporary teaching frameworks. Educators engaged with differentiated planning techniques, such as the SOLO Taxonomy, and refined their understanding of formative and summative assessments within Units of Inquiry. These reflective discussions encouraged the integration of learning goals with meaningful evaluation practices and classroom observation formats.

A major highlight of the PLDP was the focus on leadership in a digital-first world. With guidance from DPSGS's Marketing & Communication and IT heads, participants examined the nuances of educational branding, digital citizenship, and the ethical use of technology in classrooms. Exposure to cutting-edge ed-tech tools, alongside insights into cyber safety and digital strategy, empowered educators to implement tech-driven learning with intention and clarity.

Ms. Dimple Chawla, Head of School, conducted a comprehensive workshop on the Standard Operating Procedures (SOPs) of DPSG Society that play a vital role in ensuring the smooth functioning of the school system. During the session, she elaborated on how these SOPs provide clarity, consistency, and transparency in day-to-day operations. She also emphasized the importance of adhering to these well-defined processes to maintain high standards of efficiency and accountability. The workshop offered practical insights and real-life examples to help the staff align their work practices with the expectations of the institution.

To round out the learning experience, educators delved into strategies for documenting and making learning visible. Leveraging platforms like Seesaw and Padlet, teachers learned to capture student voice, showcase reflective thinking, and utilize portfolios and triangulated assessments to enrich the learning journey. Micro-teaching practices encouraged peer feedback and personalized learning, anchoring pedagogy in evidence and continuous improvement.

The PLDP 2025 reaffirmed DPSG's belief that professional learning is not a one-time initiative, but a visionary commitment to educational transformation. By equipping educators with the tools, mindset, and strategies of 21st-century learning, DPSG continues to build collaborative, inquiry-driven classrooms that prioritize action, reflection, and impact.

With each step forward, DPSGS empowers its educators to lead as lifelong learners, shaping the future of education—one inspired classroom at a time.
