WELCOME BACK! A FRESH START TO AN EXCITING TIME

We were delighted to welcome our students and staff back to school after a joyful and restful summer break! The halls were once again filled with the energy, laughter, and enthusiasm of our learners, ready to begin another enriching academic journey.

As we step into this new term, we embrace the opportunities ahead—with renewed goals, refreshed minds, and a continued commitment to excellence in education.

Classrooms are alive with curiosity, creativity, and collaboration as students reconnect with friends, meet their new teachers, and dive into engaging lessons.

This year, we continue to focus on holistic development, immersive learning, and fostering a nurturing environment where every child can thrive.

Whether it's in the classroom, on the playground, or through co-curricular activities, we look forward to helping each student discover their potential and achieve their personal best.

ADMISSIONS OPEN

SESSION 2026-27

FOR GRADE
Pre-Nursery to IX & XI

- ✓ Practiced-Based Education
- ✓ Tech-Enabled Classrooms & Labs
- ✓ World-Class Sports Infrastructure
- ✓ Career Counselling & University Placement Services

LITTLE SCIENTISTS AT WORK

As part of our immersive learning approach in science education, Primary students recently engaged in an exciting hands-on activity – Making Model Volcanoes!

This interactive experiment allowed young learners to explore the fascinating concepts of volcanic eruptions, chemical reactions, and Earth science in a fun and memorable way.

Using simple materials such as baking soda, vinegar, dish soap, and clay, students constructed their own volcano models and witnessed the dramatic “lava” eruptions first-hand.

The experience was not only visually engaging but also an excellent demonstration of acid- base chemical reactions in action.

This activity sparked curiosity, encouraged observation, and supported experiential learning by linking classroom theory to real- world phenomena.

Such activities embody your belief that learning is most effective when it is active, engaging, and student-centered. We’re proud of our young scientists and look forward to many more explorations that make science come alive!

EXPLORING FILTRATION

Our students from the Primary section recently participated in a hands-on Filtration Activity designed to deepen their understanding of separation techniques in environmental science.

The activity provided a practical demonstration of how filtration is used to separate solid impurities from liquids – a foundational concept in both science and everyday life.

Using simple tools such as filter paper, funnels, and beakers, students actively engaged in constructing their own filtration systems and observing the process in real time.

This interactive approach allowed students to connect theoretical knowledge with real-world application, reinforcing key scientific concepts through observation, inquiry, and experimentation.

The activity also fostered essential 21st-century skills such as critical thinking, collaboration, and problem-solving.

STORIES THAT SPARK JOY: A MAGICAL STORYTELLING SESSION AT KEYS OF JOY

The facilitators of DPSG Faridabad organized a story telling session at Pre- School: Keys of Joy as we believe in the power of stories to ignite imagination, build language skills, and create lasting memories. The little learners were treated to a delightful Storytelling Session that brought characters, colors, and creativity to life!

Gathered in a cozy corner, children listened with wide eyes and open hearts as stories unfolded through expressive narration, props, and playful voices.

From talking animals to magical forests, each tale was carefully chosen to nurture values like kindness, friendship, and curiosity—core to our preschool philosophy.

Storytelling at Keys of Joy was more than just listening—it's an immersive experience. Children were encouraged to interact, ask questions, and even act out parts of the stories, making the session lively and engaging. These moments support early literacy, emotional development, and imaginative thinking—all essential for foundational growth. It was a heart-warming reminder that storytelling is not just entertainment—it's education, connection, and joy all in one.

MAANAVTA – A SOCIAL INITIATIVE BY DPSG FARIDABAD

In alignment with its core values of compassion, responsibility, and civic engagement, DPSG Faridabad proudly launched “Maanavta”, a thoughtful social initiative aimed at fostering empathy and active citizenship among students.

Maanavta, which means “Humanity”, is more than a program—it is a movement to encourage young minds to contribute meaningfully to society. Through this initiative, students participate in a variety of outreach activities, including visits to underprivileged communities, donation drives, environmental clean-up efforts, and awareness campaigns on health, hygiene, and sustainability.

These experiences help students understand real-world challenges and cultivate values of kindness, humility, and service. By stepping beyond the classroom, learners gain a deeper appreciation for diversity, equity, and the shared responsibility we all have in building a better world.

At DPSG Faridabad, Maanavta reflects our unwavering commitment to holistic education—where academic excellence is matched by a strong moral compass and a heart for social good.

We commend our students, staff, and parent community for their enthusiastic participation and look forward to expanding the reach and impact of this meaningful endeavour.

TOUCHING THE WORLD OF WORDS!

Our PYP 3 students discovered Braille, exploring how blind people read and communicate through touch. A valuable lesson in diversity and accessibility!

In a hands-on and deeply engaging learning experience, students were introduced to the Braille system—a tactile reading and writing method that allows blind and visually impaired individuals to access information through touch. Through interactive activities, they explored how Braille letters are formed using raised dots, and even tried reading and writing simple words using Braille sheets.

This eye-opening experience was not just about understanding a new form of communication—it was a lesson in empathy, diversity, and accessibility. Students reflected on the importance of inclusive design and how small adaptations can make a world of difference in ensuring equal opportunities for all.

By stepping into the shoes of others, even briefly, our young learners developed a deeper appreciation for the challenges faced by people with disabilities—and more importantly, how society can support them through compassion and innovation.

NURTURING CREATIVITY AND EXPRESSION

We believe that music is not just an art form—it is a powerful medium for self-expression, creativity, and emotional growth.

Our music classes are designed to provide students with an enriching and joyful experience that nurtures their artistic potential while supporting their overall development.

Through structured lessons in vocal training, rhythm, instrumental skills, and music theory, students explore a wide range of musical styles and traditions. From learning classical ragas and patriotic songs to experimenting with global genres and composing their own melodies, every class is a celebration of sound and imagination.

Music education at DPSG goes beyond performance—it builds essential life skills such as discipline, patience, collaboration, and confidence. Group singing, choir practice, and instrumental ensembles also teach students the importance of harmony, both in music and in life.

Whether on stage during school events or in the quiet moments of rehearsal, our students find their voice and rhythm in an environment that encourages creativity and self-discovery.

NAVIGATING FUTURES: CAREER COUNSELLING SESSION BY JITIN CHAWLA'S TEAM AT DPSG FARIDABAD

As part of our ongoing commitment to guiding students toward informed academic and career choices, DPSG Faridabad organized an insightful Career Counselling session facilitated by the renowned team of Mr. Jitin Chawla, one of India's leading career counsellors.

The session, attended by students of senior grades, was designed to help them explore diverse career pathways in alignment with their interests, aptitudes, and emerging global opportunities.

The expert provided valuable insights into traditional and non-traditional careers, evolving industry trends, and the importance of acquiring future-ready skills.

Students were encouraged to reflect on their strengths, clarify their goals, and ask questions related to course selections, higher education options in India and abroad, and career planning strategies.

The session also emphasized the significance of self-awareness, passion, and adaptability in Council Leadership Programme, marking another significant step shaping successful careers in a rapidly changing world.

BUILDING CHARACTER AND LEADERSHIP: SCOUTS & GUIDES TRAINING AT DPSG FARIDABAD

As part of our commitment to holistic education and character-building, DPSG Faridabad hosted a Scouts and Guides Training Programme in collaboration with the Haryana State Bharat Scouts and Guides.

The training session aimed to instill in students the core values of discipline, service, teamwork, and self-reliance—principles that form the foundation of the Scouts and Guides movement.

Led by certified trainers from the state organization, the programme engaged students in a variety of structured activities, including knot-tying, first aid basics, outdoor skills, team-building exercises, and an introduction to the Scouting code and promise. Through the immersive experience, students not only learned practical life skills but also developed a deeper sense of social responsibility, leadership, and respect for community service. The spirit of camaraderie and enthusiasm was evident as students actively participated, collaborated, and embraced the ethos of "Be Prepared."

A GIFT OF LIFE: BLOOD DONATION CAMP AT DPSG FARIDABAD

In a strong demonstration of social responsibility and community service, DPSG Faridabad successfully organized a Blood Donation Camp, in collaboration with a certified medical organization, as part of its ongoing commitment to humanitarian values and civic engagement.

The initiative witnessed enthusiastic participation from parents, staff, alumni, and members of the local community, who came forward to donate blood and contribute to a life-saving cause.

Under the supervision of trained medical professionals, the camp followed all necessary safety and hygiene protocols to ensure a smooth and secure experience for all donors.

The event served not only as a platform to support emergency healthcare needs but also as an opportunity to educate the school community about the importance of voluntary blood donation, its role in saving lives, and the impact it can have on individuals and families in need.

Through this noble initiative, DPSG Faridabad reinforced the values of compassion, empathy, and active citizenship, encouraging students to witness real-life acts of kindness and social responsibility. We extend our heartfelt gratitude to all the donors, volunteers, and medical staff who helped make this event a success.

Together, we proved that a small act of giving can make a world of difference.

EMPOWERING GROWTH: PLDPS FOR STAFF

PLDPS are more than just a professional requirement – they are a personalized roadmap for growth.

Each staff member creates a tailored plan that identifies their strengths, areas for development, and specific goals they want to achieve throughout the school year.

These goals can range from enhancing classroom strategies and integrating new technologies to fostering inclusive practices or pursuing leadership opportunities.

By investing in our educators' growth, we are directly investing in the success of our students. As staff develop their skills and confidence, the positive effects ripple through classrooms, inspiring deeper learning, engagement, and innovation.

We look forward to seeing the incredible progress our staff will make this year through their PLDP journeys.

Together, we're building a culture of continuous improvement and professional excellence
