EXPERT VIEW

DT's Aradhya Dua caught up with Ms Kavita Luthra, Starz Co-Ordinator, Primary Wing, for a Q&A session.

Excerpts:

How do you plan and prioritize your work?

As soon as I get to work, I record the assignments I need to complete and list them in order of highest to lowest priority based on the due dates. I create my schedule, I modify schedule based on shifting priorities and set deadlines.

Ms. Kavita Luthra

Why do you think teamwork is important?

Teamwork is essential to success. When team members work towards a common goal, it fosters a sense of unity and helps build trust and transparency. When people work as a team, they can share their ideas freely, learn from others and brainstorm together to find creative solutions to challenging problems. Working as a team also brings joy and adds meaning to the work that everyone does.

What are the key strengths you would bring to our team?

I prefer face-to-face communication to help build trust and transparency in the workplace. We also have informal sessions and team events to help people interact with one another outside of work and foster a sense of community and belonging in the workplace.

Championing Equality: Empowering Lives Through Human Rights Advocacy

IB PYP

‘We strive to instil a spirit of learning’

DT’s caught up with Ms Pooja Jindal, Subject Matter Expert, PYP for a Q&A session. Excerpts:

Ms. Pooja Jindal

Q1. What is your greatest strength as a teacher?

My greatest strength as a teacher is my ability to create a positive and inclusive classroom environment. I have good listening skills, and I believe to understand the emotions and problems children face nowadays. Benefiting from this ability, I can connect with children on a very personal level, which helps me to gain their trust.

Q2. What are some advantages of an IB education?

IB learners drive their own learning. They are able to think critically and solve complex problems owing to the skill sets they develop. IB students develop strong academic, social and emotional characteristics as they are able to engage with people in an increasingly globalized, rapidly changing world.

Q3. What makes students successful in your class?

The most important one to make a kid successful is their parent and teacher both. Both are equally important in the role they play in the kid’s life. A teacher is with a kid for 6–7 hours every day. They are the ones teaching your learners about book knowledge and life skills.

KIDDOFEST

Aarush Bansal

New Year, New Goals: A Fresh Start and Resolutions for a Year of Growth and Positivity

Kshitika Gupta

IBDP year II

In the coming year, I aim to eat healthier, work on my time management skills and prioritise self-care.

Prakhar Kaushik

IBDP year II

In the coming year, I want to procrastinate less, start going to the gym, sleep on time, complete reading the book- The Brothers Karamazov, and cycle from one city to another.

THE RESOLUTIONS

Shylah Dutta

IBDP year I

As the new year dawns, my resolution is to ride the waves of 2024 with a raw, unfiltered approach embracing every twist and turn with an open heart and an open mind. I aspire to approach the unfolding tapestry of the year with a primal, unbridled energy- utterly immersed in the allure of the unexpected.

Stuti Panda

IBDP year II

My new year resolution is to work on my health both physical and mental to maintain a positive lifestyle. I plan to switch to a healthier diet and stay hydrated, and reduce my screen time. I will also be kinder to others and make everyone around me smile.

A thought for today

Still Life: Reminiscence

Being in my final year of IBDP in school, it is a bit difficult for me to accept that soon I will be transitioning to a new phase of my life. Moving on seems exciting, but at the same time, I wish to cherish the memories of my final year in IB wing through this composition. The assemblage of objects arranged in this observational still life depicts memorable episodes of my school life. From the unkempt bag to the alarm clock, from the worn-out school shirt to my pencil pouch, each object in this still life is a reminder of my school life. Even though time will take me to new places, the memories of these moments will stay with me, always cherished, always echoing in my heart.

A New Beginning

Now, we all start a new chapter in the book of life we never expected. We're growing up. From having struggled choosing what to wear for our friend's birthday party to choosing what to eat in that restaurant, from choosing which pair of jeans to buy to now, choosing where to study for the Bachelors course, we have seen it all. That carefree attitude no longer exists. Are we in a different universe? 14 years of school life seems to have gone past so quickly. Now every memory feels like it was 'just yesterday'. Will we be able to retain these memories? Remembering the childhood is thinking of the tantrum we threw when our mother cooked bitter gourd for dinner or when dad didn't allow to buy that one toy which you already had but in a different colour. We meet new friends but do we let go of the old ones? Will we be friends forever? We met just this year but will we remember each other next year? Next to next year? We might grow apart from each other, but the memories of our time together and friendships formed in IB wing will be cherished for a lifetime.

Wisdom Tree

The First Ones to Acknowledge The Existence of The Solar System:

While history credits Copernicus for proposing the heliocentric model of our solar system, it was the Rig Veda that first noted the central placement of the sun and other planets orbiting it in the solar system.

Rig Veda
1.164.13

The Rig Veda, dated back over 3,000 years, is the oldest sacred text in Hinduism. Comprising hymns and rituals, it's a spiritual treasure trove, offering insights into ancient Indian wisdom and the pursuit of divine knowledge.

Rig Veda
1.35.9

"The sun moves in its own orbit but holding earth and other heavenly bodies in a manner that they do not collide with each other through force of attraction."
