In today's dynamic and competitive world, career planning has become more crucial than ever. To guide our students in making informed choices, building strong profiles, and reaching their best fit universities, the school has established a dedicated Career Counselling and University Placement Cell (CCUP). We aim to equip our learners with the clarity and confidence needed to face the professional world.

For our Grade 10 students, we have further strengthened counselling support to ensure thoughtful stream selection—a decision that defines their academic and career trajectory. This month, the school is conducting personalised one-on-one sessions for every Grade 10 student, helping them identify their aptitudes, interests, and long-term goals before making this crucial choice.

The school is also preparing to inaugurate a state-of-the-art auditorium—a 400-seater facility equipped with world-class acoustics and a large LCD display. This inspiring space will host cultural performances, academic events, conferences, and assemblies, giving students a vibrant platform to showcase their talent and creativity.

To preserve milestones and memories, the annual Student Yearbook (SYB) continues to serve as a cherished keepsake. It captures achievements, photographs, and reflections, allowing students to relive their journey for years to come.

At Delhi Public School Ghaziabad, Meerut Road, we recognise that parents are partners in education. True learning is a shared responsibility—where dedicated teachers, motivated students, and supportive parents work together with high expectations. By being role models, we can shape a future defined by responsibility, leadership, and global citizenship.
